# AGRICOVA STORY

**AGRICOVA** was developed to meet the needs of commercial agriculture and horticulture cultivation. The itself is a union of the words AGRICULTURE + NOVA. AGRICULTURE being "the science or practice of farming" and "the cultivation of soil for the growing of crops". NOVA being "a star showing a sudden large increase in brightness".

The logo is composed of three leaves in the shape of a flower, representing that we are engaged in agriculture and flower related industries. Three leaves represent three product lines.

Proudly of quality since 2010, **AGRICOVA** was developed to meet the needs of commercial agriculture and horticulture cultivation.

AGRICOVA proudly distributes world-class brands such as AUVEL, PHILIPS, VOSTERMANS Ventilation and more. With over ten years of intensive research and development, AGRICOVA ensures quality of both products and service to bring our customers success.

- Efficiency meets Energy Star level 3.3L/kWh, Anti-corrosion treated evaporator for chemicals and gas corrosive resistance,
- Innovative Deep Sub Cooling (DSC) condenser effectively guarantee the low energy consumption refrigeration power,
- The electronic expansion valve (EEV) automatically adjusts the condensation pressure of the refrigeration system according to different environment,
- Optimized airflow path (OAP) technology to ensure better low condensation temperature,
- High efficiency and durable Electrical Commutation (EC) motor blower,
- Remote controllable by 485 communication interface or computer. Control through the mode bus protocol, up to 256 machines can be controlled at the same time (IP allocation),
- Compatible with \*Honeywell H6062 programmable digital humidistat,
- Built-in working status indicator, easy to operate
- 5 Years Warranty and technical supports

**THE KING OF COCO'S HAS  
ARRIVED IN COLORADO...**

## **PREMIUM QUALITY COCO GROWING MEDIUM**

### **1 DENSITY SCREENING**

We check that the strands of coir are uniform in scale and density, **no nasty lumps of coir in coco KING!**

### **2 CLEANING**

**COCO KING Coir** is washed in RO Water, removing all impurities and any unwanted sodium content.

### **3 BUFFERING**

**COCO KING Coir** is calcium treated (buffered) which helps increase cation exchange capacity.

### **4 CHARGING**

**COCO KING Coir** is charged with exacting amounts of calcium to replace the sodium and potassium.

**AVAILABLE NOW FROM THE AGRICOVA WAREHOUSE, COLORADO**

## Propagation Dome

- Adjustable humidity and temperature vents
- Easy to grip handle on cloning dome
- 7" in height (6.5" interior space) more growing space
- Fits tightly onto standard 10 x 20 inch flats or cell trays

## Seed Grow Trays

- Dimensions: 11" W x 21.2" L x 2.5" D
- Heavy duty and reusable
- Fits standard 1020 Cell Starter Trays great for Planting Kit
- No drain hole design will retain and save water
- Perfect for use as a drip tray, hydroponic growing and seed starting

## Seedling Heat Mat 10" x 20"

- 10"x20.75" size for seedlings and cuttings propagation
- Double insulated surface never scorches the roots
- Energy saving in low electric consumption
- Far-infrared film makes the heat source softer

## Seeding Heat Mat Thermostat

- Digital heat mat thermostat with durable ABS housing
- Temperature range of 5-40 °C/42-108 °F
- Universally compatible with all heat mats
- Plug-Play easy operation

## Pruner Titanium Straight Blade

- Ergonomic design
- Anti-slip handle
- Comfort grips
- High quality spring
- Ultra-light-2.3 oz(65g)
- Safety lock
- Stainless Steel
- Overall length: 6.5"(166mm)

## Pruner Titanium Curved Blade

- Ergonomic design
- Anti-slip handle
- Comfort grips
- High quality spring
- Ultra-light-2.3 oz(65g)
- Safety lock
- Stainless Steel
- Overall length: 6.5"(166mm)

## Bonsai Shear - 60mm Non-Stick Blade

- PTFE coating prevents tree oil and gum from sticking to the blades
- Anti-slip soft gel handles
- 60mm Surgical stainless steel blades
- Ultra-light 2.1oz (58.3g)
- Overall length 7" (183mm)
- Ergonomic comfort grip design suitable for left or right hand use
- Idea for cutting delicate indoor plants, flowers or bonsai trees

## Bonsai Shear - 60mm Titanium Blades

- Titanium coating blade is three times harder than steel, and more durable over traditional blades
- Anti-slip soft gel handles
- 60mm Surgical stainless steel blades
- Ultra-light 2.1oz (58.3g)
- Overall length 7" (183mm)
- Ergonomic comfort grip design suitable for left or right hand use
- Idea for cutting delicate indoor plants, flowers or bonsai trees

## ZHANG XIAO QUAN Garden Shear

- Curved blade design precise cutting
- Apply strong Zhang Xiao Quan's special heat treatment process at stainless steel, double durability and sharpness
- Non-toxic teflon coating prevents plant oil and gum from sticking to the blades
- hand-tightened strong rivets resists rust, keep blades sharp and smooth
- Ergonomic grip made from non-slip PVC provides comfortable natural movement of hands and finger

## Black Nitrile Gloves

- Natural pH
- Excellent grip and dexterity
- Latex and Power-free
- Ambidextrous use

## Trellis Netting

- Made of pliable plastic for Horizontal or vertical uses
- 4', 5.5' and 6.5' wide available with 6 in squares
- Durable plastic, not tangle after long uses

## Plant Clip

- Quickly and easily secure plant stems to garden stakes
- Allows room for natural plant movement and growth
- Weatherproof clip with stainless steel spring
- 50 pieces per bag

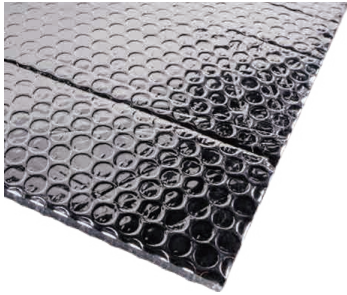

## Steel Garden Stakes

- Green plastic stuff coated steel plant sticks , anti-rust and corrosion resistance surface
- Used as plants support frame to hold some climbing plants like tomatoes, cucumber pole bean. Also perfect for securing trees, shrubs, vines
- Prevent fruits and flowers from growing in a messy and weighing down the stems
- Easy to install with the tapered point, textured surface design can ensure the secure and effective grip

## IR Block Bubble Foil

- 120 mil thick, 48" wide x 100' long
- 100% light tight
- 97% significantly reduces thermal imaging heat
- Dual layers of metalized bubble films
- Insulated mid layer prevent conductive heat flow

## Reflective Mylar Film

- 2 mil thick, 48" wide x 100' long
- 100% light tight
- 98% highly reflective metalized plastic sheeting
- Environment-friendly and plant safe

## Reflective Mylar Film

- Size wide 10ft x 100ft long
- Waterproof white on one side and black on the other side
- Reflects 90% of the light back to the growing area
- The heavy-duty film uses as a room partition

## Mini Measure Shot Glass

- Use the mini shot glasses to measure water, nutrients, and other liquids in teaspoons, tablespoons, ounces, and milliliters.

## Measuring Cup

- Chemically resistant polypropylene
- Translucent for easy and accurate measuring
- Ideal for home, lawn, garden or kitchen. Dishwasher safe, permanent markings, hing visibility
- 250ml, 500ml, 1000ml, 2000ml, 3000ml and 5000ml different sizes for choices

## Food Vacuum Seal Pre-cut Bag

- Precut 11"x20.5"and 100 bags per pack
- Keep food fresh BPA free
- Resists punctures and tearing
- Locks in freshness and flavor
- Safe for microwave, freezer, refrigerator, and simmering

## Food Vacuum Seal Rolls

- Size:11" x 50ft / 28x1500cm
- Total 185 micra thickness, smooth layer 80 micra and embossing layer 105 micra
- Food grade PA/PE material for food vacuum seal package
- BPA free

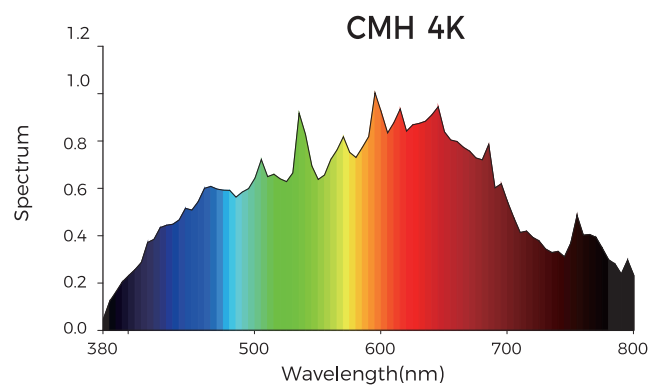

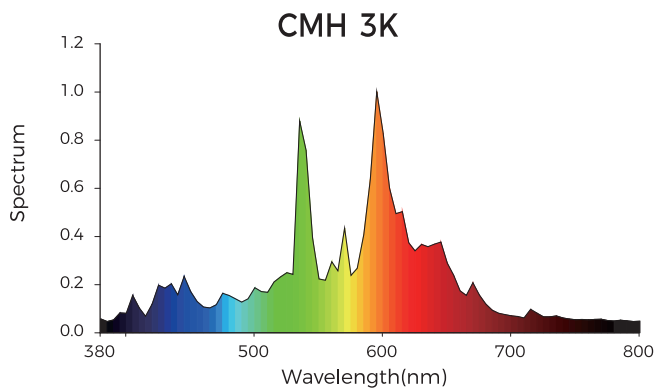

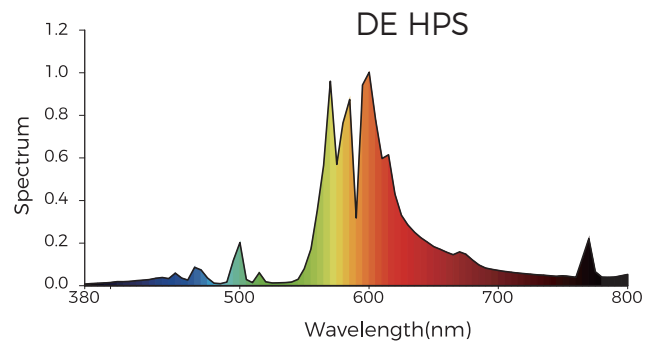

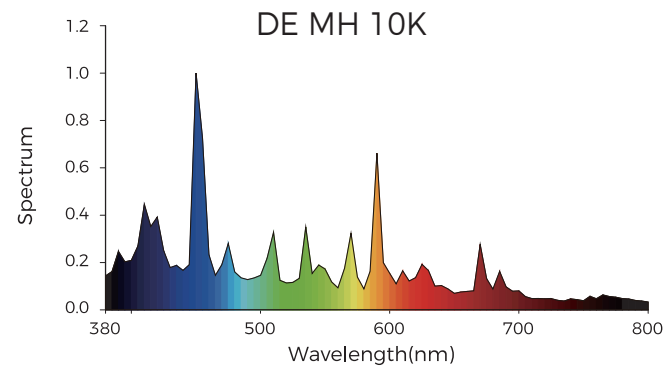

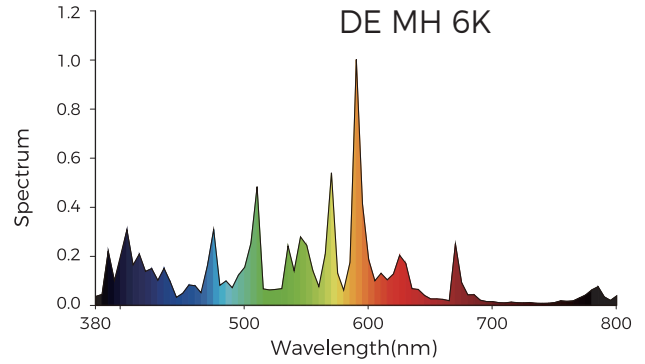

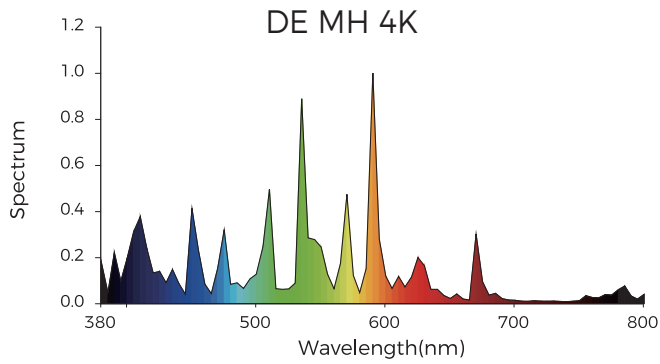

## Grow Room Glasses HPS - LED Lenses

- Comfortable frame are fitted with HPS-LED 2 interchangeable lenses
- Color balancing lenses that improves contrast, corrects color and reduces glare
- Scratch resistant lenses with full UV protection
- Excellent for use in all grow room applications
